Pao Summer Activities Camp

Designed for children aged 5 to 9, Activities Camp provides a variety of activity experiences and helps children enhance their exploration spirit, expression ability, concentration and innovation in an immersive bilingual environment based on the learning ability and characteristics of children at this age group, so as to reach healthy and comprehensive Whole Person development.

The daily activities cover **STEM Science**, **Music** and **Sports** (including swimming).

STEM

The highly hands on STEM programme is taught in English for two hours every day, covering everything from physics, mechanical engineering, biology and other scientific principles and knowledge, and lead students to explore the mysteries and fun of science through interactive experiments and games.

Music & Performing Arts

One hour of music and performing arts activities each day is designed to encourages children's interest in the arts and foster their ability to express themselves freely.

Sports

A healthy body leads to a healthy mind and sports activities is a key component of a child's physical and mental development. For one hour each day a wide range of activities including games, ball sports, water sports and more are provided to develop team and inter-person skills while strengthening bodies.

4 Sessions per day for balanced development

Classroom

Shared Learning Corridor

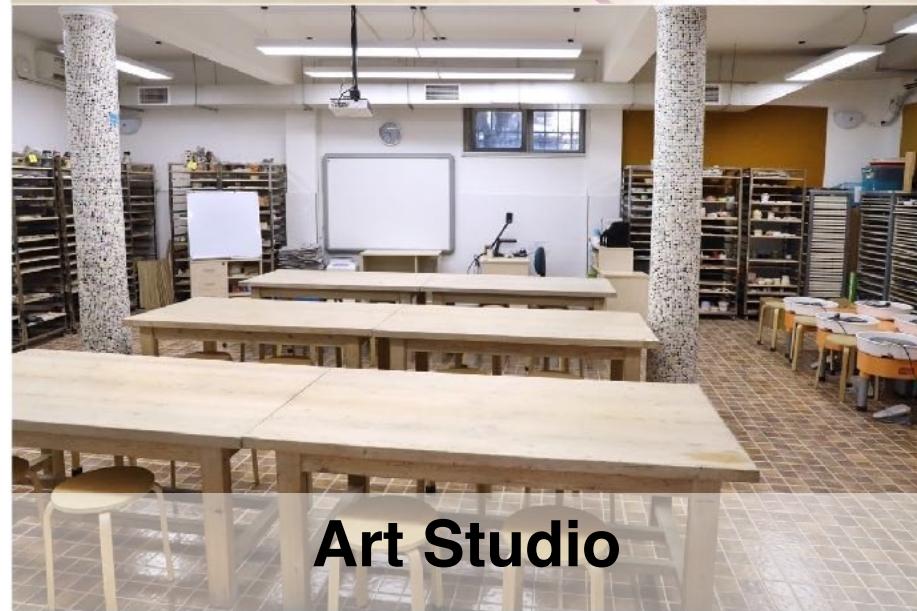

Swimming Pool

Gym

Auditorium

Art Studio

Cafeteria

Library

What parents have said...

- Although many children participate each session, the programme was still very well organised. From the information sessions before start of camp, to the daily arrival and pickup process, as well as the feedback to parents, made us parents feel comfortable with how orderly things were managed. The course content was well put together and allowed children to try various sports and scientific experiments.

- In general, my boy liked it very much. The teachers and staff were responsible and friendly. Even after the summer camp, he still sometimes talks about it. For younger children, the daily schedule was closer to primary school, which may be a bit challenging in the first couple of days; but fortunately, the teachers and staff were very professional and supportive to help him quickly adapt and enjoy. As parents, we are truly grateful for it!

- We were absolutely delighted with the quality of the summer camp. From the superb organisation to the quality of the activities. Most of all the excitement and enthusiasm our son Andrew had for each day was lovely for us to see. A huge well done to everyone involved in the programme. Bravo!

See you at Wuding Campus!
