Summer 2025**

"The camp wasn't just about learning Chinese; it was about living it. My son came back not just with new words, but with new friends from around the world. "

**Emily,  
Parent (USA),  
Summer 2024**

"The camp was really well organized and gave some good knowledge into China's culture. We particularly like the flow of communication between the teacher and parents covering what had been done in that day and all relevant details of how our daughter had performed even down to a picture of the day. Fantastic! "

# A PLACE FOR LEARNING, EXPERIENCING AND ACHIEVING.

# IMMERSIVE CHINESE LEARNING THROUGH PAO'S UNIQUE CURRICULUM DESIGN

Designed and delivered by YK Pao School's experienced Chinese teachers, the programme is inspired by Chinese classic literature and integrates language, culture, and interdisciplinary learning. Through storytelling, performance, and project-based activities, students develop language skills, cultural understanding, and creativity in an authentic Chinese environment.

## Literature as the Core

Inspired by *Journey to the West* and other timeless works, students learn Chinese through classic stories that connect language and imagination.

## Interdisciplinary Learning

Lessons integrate language, humanities, art, and even mathematical thinking—helping students make cross-disciplinary connections while deepening cultural understanding.

## Level-Based, Student-Centered Approach

Tailored to different language abilities—from beginners to advanced learners—the curriculum ensures each student progresses with confidence and joy.

# LEARNING BEYOND THE CLASSROOM

Through co-curricular activities and cultural excursions, students step outside the classroom to experience Chinese culture in action-learning by doing, discovering by living.

From exploring Shanghai's Yuyuan Garden to creating rhythms in Chinese percussion classes, every moment inspires creativity, teamwork, and appreciation for tradition.
