**2026  
WHOLE  
PERSON  
DAY CAMP**

PAO BEYOND

**Beyond academic learning, we place strong emphasis on each child's growth as a whole person. This summer, the Whole Person Day Camp for younger learners offers two core subjects—Bilingual Science and Speak & Shine (students may choose one)—alongside two CCAs, Creative Arts and Fun Sports, creating an enriching and engaging summer experience where children develop into well-rounded individuals through critical thinking, creativity, and physical activity.**

**Session 1:** June 29 – July 10, 2026  
**Session 2:** July 13 – July 24, 2026  
 (Excluding weekends, each session lasts 10 days. The content of the two sessions is different. Consecutive enrollment is available.)  
**Ages:** 5-9 years old (5 years old-Year 4)  
**Class Size:** 18-20 students/class  
**Schedule:** 9:00-15:30, 4 sessions/day (2 core subjects + 2 CCAs), including lunch and two snacks  
**Location:** Wuding Campus, YK Pao School, Shanghai  
**Tuition:** RMB 14,980 per session

### TWO CORE SUBJECTS (2 hours per day, choose one)

#### CORE SUBJECT **1.** Bilingual Science — Think Like a Scientist, Explore the World in Two Languages

An interdisciplinary science enrichment programme designed for children aged 5-9. Through hands-on exploration, children are guided to observe, ask questions, and test hypotheses in both English and Chinese, sparking a lifelong curiosity and passion for science.

**Programme Highlights:**

- Age-Appropriate Learning**  
Course content and experiments are carefully tailored to different age groups, ensuring that every child is appropriately challenged and experiences a genuine sense of achievement.
- Bilingual Immersion, Dual-Track Thinking**  
Key scientific principles, experimental procedures, and discussions are naturally integrated in both English and Chinese, helping children develop the ability to think scientifically in two languages.
- Interdisciplinary Project-Based Learning**  
Each session explores an in-depth theme (Astronomy, Geology, Life Sciences, Physics, etc.), allowing children to experience the complete enquiry cycle—from asking questions to drawing conclusions—through hands-on experimentation.

#### CORE SUBJECT **2.** Speak & Shine — From Stories to Ideas, Let the World Hear Their Voices

Taught entirely in English, this course integrates four key modules: drama, creative storytelling, voice-over, and critical thinking. It sparks children's interest in the art of language and allows them to discover the joy of expression in a fun and engaging classroom environment.

**Programme Highlights:**

- Age-Appropriate Learning, Progressive Development**
  - **Younger age group:** Inspire a desire to express and stretch the imagination—encouraging children to speak up and enjoy performing.
  - **Older age group:** Develop logical thinking and critical reasoning—helping children form opinions and express them persuasively.
- Multi-Format Expression**  
From drama to voice-over, from body language to vocal expression, children gain confidence in a variety of settings and master the magic of storytelling through both voice and movement.
- From Stories to Ideas: A Cognitive Progression**  
Children are guided on a journey from "telling a vivid story" to "presenting a compelling argument." They develop habits of critical thinking and learn to construct logical, well-reasoned personal viewpoints.

#### SAMPLE DAILY SCHEDULE

TIME	ACTIVITY
8:45	Student arrival
9:15	Session 1
10:15	Morning break & snack
10:30	Session 2
11:30	Lunch break
12:45	Session 3
13:45	Afternoon break & snack
14:00	Session 4
15:00	Daily reflection
15:30	End of school day

\* This schedule is for reference only and may be adjusted to accommodate programme needs.

### CCAS (1 hour each per day, for balanced development)

#### CCA **1.** Creative Arts (taught in Chinese)

Break boundaries, create freely! Drawing inspiration from masterpieces and natural materials, children explore a variety of artistic forms—including creative colour, mixed media, and printmaking. This course liberates their natural creativity, sparks unique artistic imagination, and helps children build confidence through creation.

#### CCA **2.** Fun Sports (taught in English and Chinese)

Physical and mental wellbeing is especially important for children at this age. With one hour of physical activity each day, students engage in fun sports games, ball games, and water-based activities—building strong bodies, developing teamwork, and releasing boundless energy.
